Restricted Area are back with an extremely strong double cd!

The first cd is entitled "**Core Excess**" and should in many ways unfold like a traditional album. It is a truly intense musical journey, displaying a variety of moods and feelings with lyrics sung in both English and French. The main themes being love, loss and life.

The second cd is entitled "**Underdog E.P.**" and explodes with pure, relentless and in-your-face EBM! The songs here deal with integrity (or rather, the total lack of integrity in today's society), excess and aggression and will set any dance floor on fire!

Restricted Area is a part of Elm Music and consists of songwriter and vocalist **Peter Elm**. Also appearing on a number of tracks is Emma Johansson on additional vocals, bringing a fresh dimension to the songs. Although not easily labeled, Restricted Area's music ranges from melancholic electro to relentless, uncompromising EBM.
