Rumours Of My Life ( 2012 )

After some EPs, an album and a double CD with remixes by la creme de la creme of the old school scene (Cobalt 60, Armageddon Dildos, Tyske Ludder , Trial, Severe Illusion...), GRANDCHAOS announces new album release, "**Rumours of my life**" with *Jacky Meurisse* as special guest.

The release comes 4 years after the previous one, "Open source", which was applauded by critics for its "intelligent body music". The delay was caused by the band being put on hold due to their involvement in SA42 live gigs.
