K-BEREIT France

Fred Sebastian: Voice - music & lyrics
Dominique Lallement : Machine - music & lyrics

K-Bereit from Reims, France, are no newcomers to the music world, especially not to the world of Industrial & Electronic Body Music. Kriegbereit is one of the first French industrial/EBM bands to get recognition outside of France, in the mid '80s.

Kriegbereit is a fine example of what the late '80s EBM scene was producing.

In 1996, Jean-Luc De Meyer (Front 242) and Dominique Lallement formed the now legendary Cobalt 60. They went on to release numerous records and even soundtracks for the popular video game Wing Commander: Prophecy.

After years of silence in 2002, Dominique was finally ready to join forces with his life-long friend Fred Sebastian to form the hybrid, K-Bereit. A unique and powerful blend of the Kriegsbereit and Cobalt 60 sounds.
