X MOUTH SYNDROME (FRANCE)

The music of the French quartet X Mouth Syndrome - XMS - is a perfect combination among original electronics, EBM, synthpop, gothic and industrial elements which enchains the listeners by their incredible variety of expressions and by scratchy vocal melodies. After the albums "Find A Way" of 2011, "Chrome III" of 2012 and the remixed EP of 2013 entitled "Dirty Grace", now here's the new full-length also called "Dirty Grace" in which the band formulates the best principles of electronic sound including them into a long sequence of tracks ready to amaze a wider audience of fans.

Forefront of proven value, this project contaminate their audience by determination and great composing ability, demonstrating once again to be the absolute protagonists of an effervescent electronic multi-style that will know how to surprise us with its extraordinariness.

The album "Dirty Grace" is a succession of technology events to live with full enthusiasm and active participation: the new triumph of X Mouth Syndrome is calling you!
