BODYKOMPLEX (FINLAND)

Today, the irrepressible European EBM phenomenon has a new, valid member from Finland called Bodykomplex.

After a preliminary test phase, during which they have enthused hordes of fans, Kris and Olaf have finally created their debut album. The Bodykomplex music style is characterized by oldschool Electronic Body Music formulas minded especially to be danced in utter fun.

Dry uptempo percussiveness mechanically cadenced, intercalated by minimal intersections of synth and by exciting vocals pronounced in Finnish: this is the true essence of Karma, an album full of energy and electro verve. The fourteen tracks of the release are distinguished by their perfect linearity, planned through irresistible strategies and through a constant level of involvement.

This full-length must be listened at very loud volume and danced with all your physical strength: all songs will spread their power and their technological effervescence, catching immediately your senses and leaving you stunned.

Bodykomplex are magnificent performers and "Karma" is the new emblem of the classic EBM dance: hearing is believing!
