REBIRTH "System:Error"

Digipak 2CD Album & Digital Album

REBIRTH (SWITZERLAND)

After having distinguished themselves superbly in 2018 with their debut album "The Worst Dream", the Swiss Rebirth reappear to the scene proposing a new double full length with truly amazing contents, which replicate the winning sonic schemes that characterizes the beginnings of this duo act, adding now in musics a level of involvement further advanced and effectiveness.

Sophisticated but absolutely intelligible electronic modulations, technically perfect, ensure a great entertainment and danceability, while the obscure atmospheres surround the listener, dragging him into a vortex of ecstasy, torment and altered perceptions of reality. "System: Error" is an authentic masterpiece of avant-garde sound, which enhances the combination between the subjugating force of dark electro and the technological dynamism of Electronic Body Music. Harsh vocals, rational percussive midtempo scans of drum programming, cold sequencers emissions, powerful bass lines and alienating synths sections, create a strongly polarizing melodism. The listener's brain synapses will immediately get in tune with the futuristic sonorities of Rebirth, a project with amazing inventiveness and remarkable technical skills.

The first CD includes the twelve official tracks of the album, while the second volume contains eleven amazing remixes elaborated by big names that will make all fans of the alternative electronic music panorama go crazy with joy: Atropine, Rotersand, Oldschool Union, Covenant, Struck9, Frozen Plasma, Pyrroline, AD:keY, Kifoth, Deadly Injection and OneNine.

An awaited, exciting and stellar return!
